SKILLS:

English – fluent	Data wrangling in Python and R
Modern Standard Arabic – advanced	Data visualization with ggplot
French – intermediate	Basic mapping with leaflet, QGIS, mapbox
Python – intermediate	Statistical analysis
R – intermediate	Working with US election data and VAN
QGIS – beginner	Machine learning models with scikit-learn

EXPERIENCE

Blue Bonnet Data Fellow	Remote, USA July 2020 - Present
------------------------------------	--

- Work with Democratic campaigns nationwide as a volunteer data analyst
- Utilized data from the US census, FEC, election history, etc., and programs such as VAN, Python, R, and QGIS to complete a variety of projects and build predictive models to better inform campaigns
- Constructed models to predict and map election outcomes
- Developed visualizations to show findings accurately and effectively

United Way King County (UWKC) Project Specialist; Special Projects VISTA	Seattle, WA April 2021 - July 2022
---	---

- Developed a program model and managed the implementation of UWKC's Bridge to Finish matched savings program, providing \$50,000 in matched savings to community and technical college students and created an automated dashboard for all aspects of the program
- Conducted policy research on the WA state legislature relevant to UWKC and partner advocacy goals

ABC Legal Court Support Specialist	Seattle, WA February 2020 - March 2020
---	---

- Analyzed and organized case information for courts across the United States
- Navigated and contributed to a complex document management system

Middle East Studies Program (MESP), UW-Madison Project Assistant	Madison, WI September 2019 - December 2019
---	---

- Coordinated office logistics for guest speakers and events, and managed and regularly updated the MESP website

Office of State Senator Lena Taylor Policy Intern	Madison, WI September 2019 - December 2019
--	---

- Evaluated and tracked legislation through the state senate, conducted policy research, and managed data on various initiatives for the office
